Bola

A game for the whole family to play.

Equipment:

2 goals

2 sets of Bolas (different color to keep score)

Objective:

Score 21 points

Scoring:

Top rung = 3 points

Middle rung= 2 points

Lower rung= 1 point

Set up:

Assemble goals

Place goals 24 feet apart

Center to center

Players:

Consist of 2 players or teams of 2 players

How to score:

After bola players have thrown their four bolas, the bolas remaining on the rungs are totaled. If a bola from each player is on the same rung, they cancel each other out on a one for one basis. Both teams may score.

Method of play:

A bola may be thrown in any manner. A player must not step past the centerline of the goal. The players will alternate each throw. To start the game, the player with the lighter colored bola goes first. After the 1st points are scored the team scoring the highest points on the previous throw starts.

End of play:

Team scoring 21 points or more is the winner. If both teams reach 21 points, the winner must win by 2 or more points.

Alternate end of play:

The winner must score 21 points exactly. If more than 21 points are scored, the total points of that turn are deducted from the team's previous total score and play continues. If both teams reach exactly 21 points play continues until 1 team wins by at least 2 points.

Bola

To make the Tennis bolas:

(Use 2 same color Tennis balls to make 1 set) drill a hole on 1 side and cut a slit on the other side. Thread the rope through drilled hole back out the slit, tie a knot -duct tape rope end and pull back through the slit. Take other end of rope and do same thing with the other tennis ball. Finish remaining 3 sets.
