

**KIT CONTAINS:**  
**A. CANOE**  
**B. STAND**  
**C. SEAT**  
**D. LACE**

**DO ALL DECORATING BEFORE ASSEMBLY.**

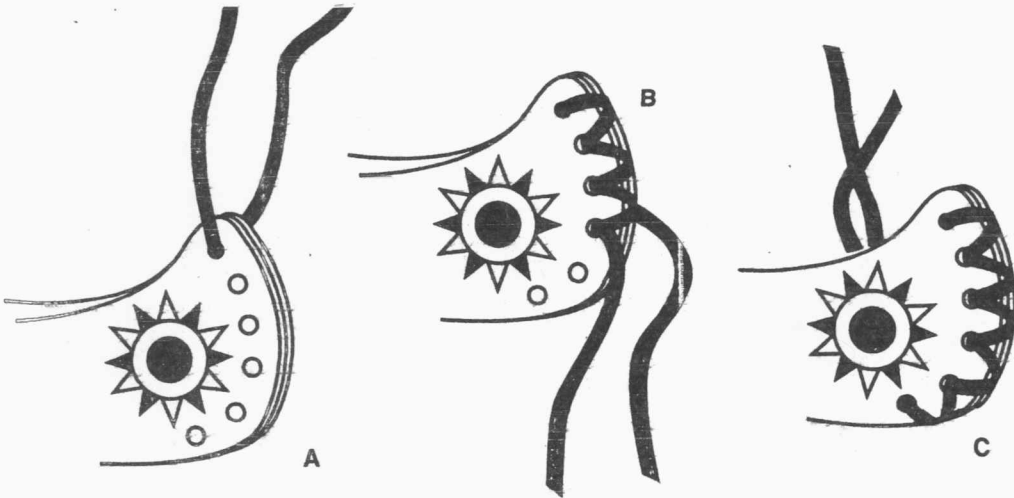

1. Apply cement around ends of canoe, between edge and holes, on inside of leather.

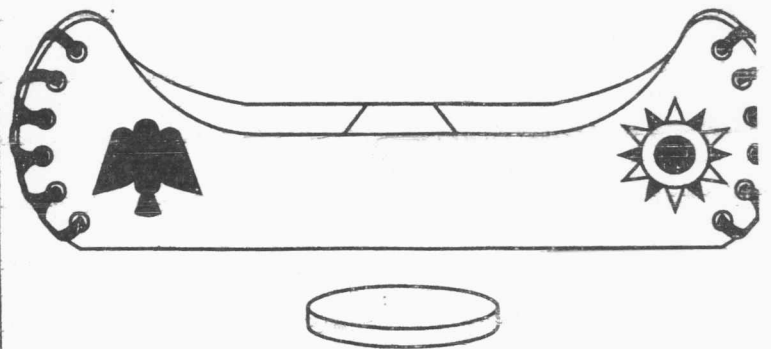

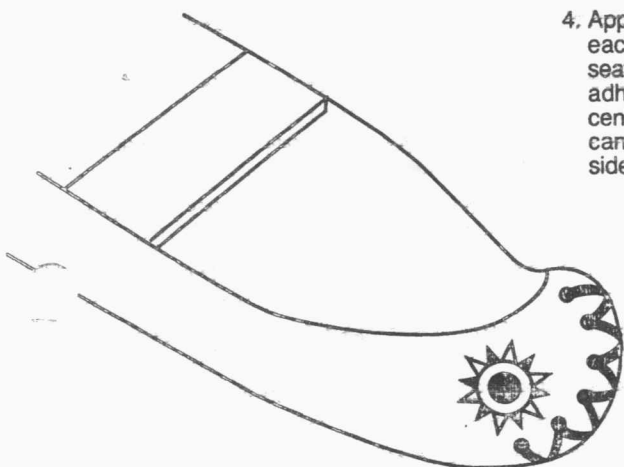

2. Fold canoe in half, aligning holes, in ends and adhere ends together

3. Cut lace in half. Point both ends of each half.

A. Push one end of lace through top hole in one end of canoe. Pull lace through until you have an equal amount of lace on each side of hole.  
 B. With one end of lace, cross over edge of canoe and go through next hole. With other end, cross over edge of canoe and first lace and go through same hole from the opposite side. Repeat this step 3 more times.  
 C. When you reach the last hole, cross laces over edge and go through last hole but bring both ends of lace out on inside of canoe. Trim off ends of lace.

4. Apply cement to each end of seat piece and adhere in the center of the canoe, between side as shown.

5. Apply cement to center of circular stand and adhere to bottom center of canoe.
